SUMMARY

Upcoming Computer Science graduate with hands-on experience in IT support, system monitoring, and documentation. Strong foundation in computer science concepts, with proven problem-solving, communication, and teamwork skills. Eager to grow in an entry-level IT or cybersecurity role and apply technical knowledge to real-world challenges.

EDUCATION, CERTIFICATIONS, & ORGANIZATIONS

Bachelor of Science in Computer Science, Kennesaw State University   Dec 2025
GPA: 3.2
Relevant Coursework: Intro to Database, Fundamentals of Data Communication, Computer Organization and Architecture, Data Structures, Computer Networks, Discrete Mathematics, Software Testing & QA, Cryptography, Operating Systems, Algorithm Analysis
Awards: President's List Spring 2023, Dean's List Spring 2025

Associate of Applied Science in Computer Programming, Central Georgia Technical College   May 2022
GPA: 3.5
Relevant Courses: Java I & II, C# I & II, Mobile App and Development (with Java and Kotlin), Intro to SQL, Computer Concepts, Intro to Security.
Awards: Graduated Cum Laude, President's List Spring 2020

Certifications: CompTIA Security+ (in progress)

Organizations: Women in Cybersecurity, Women in Technology, GirlsWhoCode

---

REVELANT SKILLS

Programming/Scripting: Java, PowerShell, Python, C#, IntelliJ, Android Studio, Virtual Box, VMware
Cybersecurity & Networking: Wireshark, DFIR, SIEM, Windows Security Logs, Auditd, TCP/IP, Linux (Ubuntu & Kali), Packet Sniffing, Splunk, Azure, Active Directory
Concepts: Incident Response, Log Analysis, System Monitoring, Access Control, Network Protocols, Vulnerability Assessment
Soft Skills: Analytical Thinking, Clear Communication, Team Collaboration, Task Prioritization, Time Management

---

PROJECT EXPERIENCE

Wireshark Traffic Analysis | CodePath   Jun 2025
- Captured and analyzed network packets to identify HTTP login traffic.
- Filtered protocols, examined headers, and interpreted client-server communication.
- Documented incidents and collaborated with peers on issue reporting.

Linux Auditd File Monitoring | CodePath   Jun 2025
- Configured Auditd rules to track unauthorized access and file changes.
- Analyzed audit logs to detect suspicious activities using ausearch and aureport.

Pizza Ordering App on Android | Kennesaw State University   Apr 2023
- Worked as a team to set and list software requirements to successfully develop a pizza ordering app on Android Studio using Java.
- Users were able to create accounts, order items, and track their deliveries.
- Implemented Firebase Database

WORK EXPERIENCE

Student Career Advocate, Kennesaw State University   Jan 2023 – Nov 2024
- Managed daily office operations including phone and live chat support, processed resumes and cover letters in Handshake, coordinated career events, and promoted departmental resources to enhance student engagement.

TEAMS Outreach Member/VISTA Member, Central Georgia Technical College   Aug 2021 – Aug 2022
- Contributed to executive committee decisions resulting in action plan, provided customer service, trained three new team members, enhanced leadership skills and mentored staff for career development.
